

# GARLIC SUPER POTENCY

## A GOOD THING IN A SMALL PACKAGE

Garlic has been called "nature's antibiotic." Garlic impacts circulatory function, immune function, respiratory function and parasitic activity.

The measure of quality in garlic is the level of allicin, garlic's active component. We standardize our Garlic (Super Potency) to insure a high level of allicin potential, which gives you the greatest assurance of quality and effectiveness.

**1 BOTTLE**
