

NATURFLEX™

MAXIMUM JOINT SUPPORT

With Naturflex™ Joint Support, you can go the distance! When you push your body, you want it to respond. Don't let weak, aching joints get in the way. Naturflex™ delivers maximum joint support through a leading-edge blend of nutritional ingredients that improve overall function and target specific mechanisms responsible for healthy joints. Each Naturflex™ dry powder caplet delivers nutritional ingredients like glucosamine sulfate and chondroitin sulfate that protect cartilage and promote healthy joints.* These ingredients are carefully balanced with Type II Collagen—a genetically distinct form of collagen that responds well to enzyme action; MSM, a major form of sulfur; Uncaria Tomentosa (Cat's Claw) for immune support; Bromelain, a sulfur-containing enzyme essential to good recovery; the powerful antioxidant Turmeric extract; a 50% Boswellia extract; the supportive amino acid, L-Glutamine and Ginger Rhizome extract.* All of this is combined in a base of nutrient-dense, green super food Hydrilla Verticillata. Naturflex™ also features EnZact77k™, our exclusive enzymatic activation and delivery system.
